Notice Number: **BVSS5022**

Date Posted: **October 7, 2004**

Due Date for **5:00 pm on**  
Comments: **October 15, 2004**

The Utah Procurement Code provides that a procurement may be made without competition when there is only one source for the required supply or service. Therefore, a "sole source" procurement is justified if there is only one product or service that can reasonably meet the state's need and there is only one vendor who can provide the product or service.

The Division of Purchasing has received a request to make the following sole source procurement.

## Requesting Agency:

Utah Department of Environmental Quality, Division of Air Quality

## Product and/or service to be purchased:

Thermo Environmental Model 146c microprocessor Based Multigas Calibrator, Gas Phase Titration, Thermo Environmental Model 111 Zero Air Supply

## Proposed Sole Source Supplier:

Thermo Environmental Instruments C/O Rust Automation

## Sole Source Justification:

Requested instrument is used by Idaho DEQ for NH<sub>3</sub> monitoring quality assurance. Time restraints preclude our ability to research and test other sources of calibration equipment. NH<sub>3</sub> is a difficult gas to dilute without contamination. System needs to be up and running by Dec. 2004. The existing equipment that this purchase must be compatible with is a SO<sub>2</sub> monitor, NO, NO<sub>2</sub>, NO<sub>x</sub>, NH<sub>3</sub>.

If for any reason any party does not agree with the proposed sole source procurement, please email **BRENDA VELDEVERE** in the Utah Division of Purchasing at **[bveldevere@utah.gov](mailto:bveldevere@utah.gov)** prior to the "Due Date for Comments" indicated above.
